Esteemed Prof. Branko Kovacevic, President of AESS,

Thank you very much for your letter and the Monograph which has been forwarded to me from the President's Office and which was "sleeping" my waste box for days. Sorry to reply to you late. It's a great pleasure to know your development history and your members from the Monograph. CAE can learn a lot from your experience.

There has been good cooperations between our two academies in the past, and instructed by my President, I will continue to promote the traditional friendship and cooperation between our two academies and two peoples in the name of CAE President. I am pleased to inform you that under the active promotion of your academy, we will jointly hold Euro-CASE-CAE 2019 Joint Conference on Evidence-based Scientific Policy Advice in Anhui Province, China, on March 27-29, 2019. You are most welcomed to attend. We can take this opportunity to further explore our future cooperation.

My President is very concerned about the implementation of the cooperation agreement with your academy. International Cooperation Department of CAE deals with all the international cooperation agreements. I have been instructed by my President to continue to follow up on the implementation of the agreements between our two academies, for which any progress will be asked to be briefed to my President in a timely manner from now on. I suggest that you also designate contact person to establish daily contact between us.

Hearty on behalf of the President as well, congratulations on the 20th anniversary of the Serbian Academy of Engineering Sciences. I wish your academy a more brilliant future.

Yours sincerely,

Tian Qi

Deputy Director- General

International Cooperation Department
